● POSITIONING

A trusted voice at the intersection of food, community, and culture.

Keith Lee shares direct, accessible food experiences with an audience that values his human approach to restaurant stories.

● PARTNERSHIP PRINCIPLES

01

Credibility first

Clear terms and truthful context protect audience trust.

02

Editorial boundaries

Paid work never implies guaranteed praise or outcomes.

03

Operational readiness

Restaurants should be prepared for attention, demand, and service pressure.

● THE APPROACH

Each opportunity begins with fit: the story, the partner, the audience value, the logistics, and the disclosure requirements.

Commercial interest does not override Keith's point of view or the need for documented, approved claims.

Built for the right kind of opportunity.

Qualified for brand fit, timing, operational readiness, and audience value before scope.

PUBLIC PRICING IS NOT LISTED

- Revenue, traffic, and sell-out claims require approved documentation.
